recording devices; photo-copying machines; mathematical instruments; time and date stamping machines; time clocks [time recording devices]; punched card office machines; voting machines; postage stamp checking apparatus; culler facer canceller; OCR letter sorting machine; automated teller machines [ATM]; electronic automatic ticket examination machines; cash registers for paperless electronic receipt management; smartphones for paperless electronic receipt management; mobile phones for paperless electronic receipt management; personal digital assistants for paperless electronic receipt management; tablet computers for paperless electronic receipt management; point-of-sale (PaS) terminals for paperless electronic receipt management; computer servers for paperless electronic receipt management; computer hardware and programs for use in enabling users to manage electronic receipts featuring paperless systems; humanoid robots with artificial intelligence; fire alarms; gas alarms; burglar alarms; emergency warning lights; meteorological and disaster prevention machines and apparatus; railway signals; airplane warning light; game programs for arcade video game machines; simulators for the steering and control of vehicles; flight simulators; sports training simulators; laboratory apparatus and instruments; microchips containing DNA probes; electronic apparatus consisting of hardware, microchips, and software for examining, studying, and researching genes and genetic material; DNA chips; photographic apparatus and instruments; cinematographic machines and apparatus; movie projectors; optical machines and apparatus; fluorescent screens; 3D spectacles; DNA analysis apparatus; measuring or testing machines and instruments; hydrogen gas meters; bathroom scales; railway traffic safety appliances, namely, sensors and detector units for use in controlling the actuation and operation of railway safety apparatus and equipment; event recorders; radio wave transmission machines and apparatus; electrical control, testing and monitoring apparatus for electricity generators; computer hardware and software for electricity generators; electrical control, testing and monitoring apparatus for substation automation systems; computer hardware and software for substation automation systems; electrical control, testing and monitoring apparatus for electric power systems; computer hardware and software for electric power systems; electrical control, testing and monitoring apparatus for micro grids; computer hardware and software for micro grids; electrical control, testing and monitoring apparatus for energy management; computer hardware and software for energy management; driving assist apparatus for automobiles, namely, driving assistant system for mobile vehicles comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; superconducting electric wires and cables; superconducting apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; power distribution or control machines and apparatus; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; rotary

converters; phase modifiers; switches, electric; distribution board and electric switches for residential buildings; switchgears; relays; circuit breakers; power controllers; lighting control apparatus; distribution boxes [electricity]; distribution consoles [electricity]; electronic power controllers; electrical and electronic control apparatus and instruments; electric control devices, computer hardware and software for accessing, viewing, managing real-time and historical data in the field of river; electric control devices, computer hardware and software for accessing, viewing, managing real-time and historical data in the field of dams; electric control devices, computer hardware and software for use in highway toll collection services; electric control devices, computer hardware and software for use in traffic control and traffic management; electric control devices, computer hardware and software for use in highway facility management; electric control devices, computer hardware and software for energy management for water supply and sewerage management; lightning arresters; transformers [electricity]; vacuum interrupters; electric reactors; inverters [electricity]; electronic power supplies; uninterruptible power supply; high-voltage direct-current power line transmission apparatus; electronic power converters; inkjet printers; electrostatic copying machines; parts and accessories for electrostatic copying machines and printers; multifunctional copying machines which incorporate functions of printers, image scanners and facsimiles; KIOSK terminals; point-of-sale [PaS] terminals; radio-frequency identification [RFID] tags; labels with integrated radio frequency identification [RFID] chips; radio- frequency identification [RFID] readers and writers; bar code readers; scanners [data processing equipment]; electronic 10 card; integrated circuit cards [smart cards]; IC cards for identification and authentication; electronic payment terminals; electron tubes; image intensifiers; semiconductors; semi-conductor elements; diodes; transistors; electronic circuits; integrated circuits; printed circuit boards; liquid crystal display (LCD) driving circuits; microcontrollers; semi-conductor memories; memory cards; secure digital [SO] memory cards; NAND flash memories; readers and writers for flash memory cards; USB flash drives; solid state drives; industrial X-ray apparatus; industrial betatrons; echo sounders; ultrasonic object detectors; ultrasonic sensors; x-ray apparatus not for medical purposes; x-ray scintillator detector not for medical use; x-ray, ultrasonic, radiological or radar inspection machines and apparatus; radiological apparatus for industrial purposes; radiation detectors; radiation measuring apparatus; magnetic cores; resistance wires; electrodes; magnets comprised of rare-earths and cobalt not for medical purposes; magnets comprised of samarium and cobalt; anodes for X-ray tube targets; earth satellites for use in telecommunications; observation rockets; spectacles; eyeglasses; parts and accessories for spectacles; consumer video game programs; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; regulators [for scuba diving]; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic

musical instruments; effecters for electric or electronic musical instruments; phonograph records; downloadable music files; downloadable image files; downloadable image files, video files, movie files via internet; recorded video discs and video tapes; electronic publications.

Class 10: Esthetic massage apparatus; electric massage apparatus; medical apparatus and instruments; weighing scale for medical use; radiological apparatus for medical purposes; apparatus for clinical medical laboratory services for the analysis of samples; ultraviolet irradiation apparatus, devices and instruments for medical use; heavy ion radiotherapy apparatus; X-ray scintillator detector for medical use; computer workstation for medical imaging systems for clinical and diagnostic use; neutron ray detectors for medical purposes; biochemical analyzers for medical purposes.

Class 11: Sanitary apparatus and installations; apparatus for ventilating and drying; drying apparatus; recuperators [for chemical processing]; steamers [for chemical processing]; evaporators [for chemical processing]; distillers [for chemical processing]; heat exchangers other than parts of machines; sterilisers; garment steamers; industrial furnaces; nuclear reactors [atomic piles]; solar furnaces; heating elements; boilers, other than parts of machines; water heaters [apparatus]; electric water heaters; heat pump type heat supply equipment; industrial air cooling and heat pump type equipment; heat pumps; air-conditioning apparatus; heating apparatus, electric; circulators; ventilating fans; ventilation [air-conditioning] installations and apparatus; fans with evaporative cooling system; air purifiers; dehumidifiers; humidifiers; disinfectant apparatus; air deodorizing apparatus, electric; electric dispensers for room deodorants; ceramic filters for deodorizing apparatus; deodorizing and anti-bacterial units for refrigerators; freezers; chilling units; refrigerators; wine cellars, electric; water coolers; laundry dryers, electric; machines and apparatus for use in beauty salons or barbers' shops; towel steamers; steam facial apparatus [saunas]; ultrasonic cleaner for beauty or sanitary purposes; hair driers [dryers]; cooking apparatus and installations; grills [cooking appliances]; electromagnetic induction cookers; cooking stoves; gas cooktops; electric cooktops; microwave ovens [cooking apparatus]; kitchen ranges [ovens]; electric rice cookers; hot plates; coffee percolators, electric; fish roasters; electric appliances for making yogurt; plate warmers; electric beverage warmers; electric food warmers; kettles, electric; bread baking machines; food steamers, electric; electric autoclaves; egg cookers, electric; dish drying machines; dish sterilizer cabinets; dish disinfectant apparatus; water supply installations; waste water treatment tanks; machines and apparatus for capturing and storing valuable resource in wastewater; sustainable onsite wastewater treatment machines and apparatus for capturing and storing valuable resource in wastewater; wastewater treatment apparatus; septic tanks; rainwater drainage apparatus; sludge drying apparatus; solar water heaters; water purifying apparatus; seawater desalination plants; water ionizers; electric lamps and other lighting

fixtures; electric torches; fluorescent lamps; LED lamps; light-emitting diodes [LED] lighting fixtures; lighting installations for air vehicles; navigation lights for aircraft; halogen lamps for OA equipment; lighting 'light dimmers; battery chargers; electrical adapters; AC adaptors; USB adaptors; adapters with wireless capabilities for data transfer; magnetrons for use in generating alternating current at microwave frequencies; electrical wiring devices; thermocouples; photovoltaic cells; solar batteries; photovoltaic apparatus and installations for generating solar electricity; solar panels for production of electricity; power conditioners for photovoltaic power generation; apparatus for generating electrolytic hydrogen by water; hydrogen-powered electricity generators with fuel cell technology; fuel cells; terminals [electricity]; electrical cells and batteries; accumulators, electric; dry cells; wet cells; rechargeable batteries; lithium-ion batteries; battery packs; electric or magnetic meters and testers; watt-hour meters; electric wires and cables; buzzers; telecommunication machines and apparatus; telephone apparatus; wire communication machines and apparatus; transmission machines and apparatus [for telecommunication]; broadcasting machines and apparatus; television receivers [TV sets]; hangers of metal for television receivers [TV sets]; accessories for television receivers [TV sets]; remote controls for televisions; TV tuners; TV tuners for computer; TV transmitters; transmitters of electronic signals for 3D television receivers; radio receivers; radio communication machines and apparatus; radio machines and apparatus; remote control telemetering machines and instruments; remote controls; remote control apparatus; remote control devices for use with the IoT (Internet of Things) devices for home security systems; automated control devices for measuring, monitoring and controlling of air conditioners, lighting apparatus and elevators; audio frequency devices and apparatus; video frequency devices and apparatus; digital cameras; surveillance cameras; digital video players; digital video recorders; DVD players; DVD recorders; remote controls for DVD player; remote controls for DVD recorder; accessories for DVD players; accessories for DVD recorders; optical disc players; optical disc recorders; remote controls for optical disc players; remote controls for optical disc recorders; accessories for optical disc players; accessories for optical disc recorders; hard disk recorders; hard disk drive recorders; remote controls for hard disk drive recorders; accessories for hard disk drive recorders; video screens; parts and accessories for telecommunication machines and apparatus; flash memory video servers; antennas; audio devices; audio devices that connects to television sets, optical disc players, optical disc recorders, DVD players, DVD recorders, or hard disk drive recorders for the primary purpose of amplifying audio signals; loudspeakers; headphones; earphones; microphones; intercoms; amplifiers; information and communication apparatus for automobile; devices for wireless radio transmission; cabinets for telecommunication apparatus; stands and racks for telecommunication machines and apparatus; digital photo frames; radar apparatus; monitoring and testing apparatuses for infrastructure

systems including roads, bridges, tunnels, water supply and sewerage facilities; wireless devices for mobile base stations using optical fibers; master system for digital terrestrial broadcasting; facsimile machines; visual display units; accessories for visual display units; aeronautical color display tubes; display monitors; display screens; electronic notice boards; digital signs; parts and accessories for digital signs; computer hardware and software for air security and traffic control; air traffic control radio equipment; computer hardware, software and telecommunications apparatus for disaster prevention; apparatus and instruments for transferring, receiving and monitoring sound, images and data, both in digital and analog form; computer hardware, software and telecommunications apparatus for energy management of plant; personal digital assistants; smartglasses; personal digital assistants in the shape of a watch; smartphones; wearable computers; electronic machines, apparatus and their parts; hard disk drives; computer hardware; computer hardware and software for use in connecting, managing, controlling, monitoring and enabling communication among IoT (Internet of Things) devices over a network; computer hardware and software for use in controlling home automation systems; computer hardware and software for providing personal assistant; computer hardware, namely, computer network hubs, switches and routers and software systems for connecting, managing, controlling, monitoring and enabling communication among IoT (Internet of Things) devices over a network; computer hardware and software for controlling vehicle driving systems; computer hardware and software for managing logistics operations; computer hardware and software for use in automating the processing and shipping of letters, parcels, and freight with postal services and private shipping carriers; computer hardware and software for automatic fare-collection systems; computer hardware and software for airport lighting monitoring and control systems; computer hardware and software to provide connectivity among vehicles, database and electronic devices; computers; computers and their peripherals; notebook computers; tablet computers; computer servers; computer network hubs; computer network adapters; computer network switches and routers; display units for computers; computer keyboards; computer mice; computer styluses; computer motherboards and daughterboards; expansion boards for computers; computer parallel ports; computer serial ports; computer programs [downloadable software]; computer software, recorded; computer programs, recorded; printers; print heads for thermal printers; print heads for fixture for commercial facilities; lighting fixture for commercial use; lighting fixtures for residential buildings; street lamps; outdoor lighting fixtures; household electro thermic appliances; electric fans; water purifiers for household use; electric toasters; electric thermal pots; pounded rice cake making machines, electric, for household purposes; oil purifying installations; household electro thermic appliances for beauty or sanitary purposes; gas water heaters [for household purposes]; non-electric cooking heaters for household purposes; gas cooking ovens; kitchen worktops

with integrated sinks; kitchen sinks; disinfectant dispensers for toilets; toilet bowls; seatings for use with Japanese style toilet bowls; toilet seats with a washing water jets; bath fittings.

Class 12: Non-electric prime movers for land vehicles, not including their parts; mechanical elements for land vehicles; power transmissions and gearing, machine elements for land vehicles; transmissions for land vehicles; shock absorbers, machine elements for land vehicles; springs, machine elements for land vehicles; brakes, machine elements for land vehicles; AC motors or DC motors for land vehicles, not including their parts; vessels and their parts and fittings; civilian drones; railway rolling stock and their parts and fittings; driving motors for railway rolling stock, not including their parts; gearing for railway rolling stock; locomotives; tramcars; monorail cars; automobiles and their parts and fittings; trolley buses; electric vehicles; two-wheeled motor vehicles, bicycles and their parts and fittings.

Class 14: Key chains; key holders; key rings; clocks and watches.

Class 16: Addressing machines; ink ribbons; paper shredders [for office use]; hand-held label printers [office requisites]; printing machines for measuring labels; paper and cardboard; papers for recording machines; copying paper [stationery]; paper sheets [stationery]; stationery; printed matter.

Class 17: Insulators; plastic substances, semi-processed.

Class 18: Bags and the like; pouches and the like.

Class 19: Reservoirs [not of metal or plastics]; tanks for feeding water [not of metal or plastics].

Class 20: Reservoirs [not of metal or masonry]; containers, not of metal, for liquid fuel; furniture; cupboards; electrically powered lifting type hanging cupboard; stands for television receiver; television racks.

Class 21: Trouser press; cosmetic and toilet utensils; electric tooth brushes; sake warmers [cooking apparatus and installations]; dinnerware, other than knives, forks and spoons; ice chests [for household purposes, non-portable]; ice-cooling refrigerators [for household purposes]; utensils for household purposes; flat-iron stands.

Class 25: Tee-shirts; caps [headwear].

Class 26: Electric hair curlers; hair curlers [non-electric].

Class 27: Wall coverings with deodorizing capability.

Class 28: Arcade video game machines; toys; dolls; sports equipment.

Class 30: Tea; cooking salt.
Class 32: Carbonated drinks [refreshing beverages]; waters [beverages].

Class 35: Advertising; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; providing information on issuance of trading stamps, loyalty rewards cards and coupons; business management analysis or business consultancy; marketing research or analysis; business management and organization consultancy; providing information concerning commercial sales; commercial intermediation services of mail-order sales via internet; providing information concerning commercial sales via internet and electronic mail; accounting; employment agencies; import-export agencies; document reproduction; office functions, namely filing, in particular documents or magnetic tape; electronic order processing; providing information relating to compilation and systemization of information into computer database; compilation of information into computer databases; systemization of information into computer databases; management of computerized files; computerized database management; providing business assistance to others in the operation of data processing apparatus namely, computers, typewriters, telex machines and other similar office machines; reception services for visitors in buildings; publicity material rental; rental of typewriters, copying machines and word processors; retail services or wholesale services for electrical machinery and apparatuses; retail services or wholesale services for computer hardware and computer peripherals; retail services or wholesale services for electronic circuits, semi-conductor devices, semi-conductor elements, integrated circuits and large scale integrated circuits; retail services or wholesale services for memory cards; retail services or wholesale services for computer software; retail services or wholesale services for electrical domestic equipments; commercial information and advice for consumers in the choice of products and services; providing employment information; providing information on newspaper articles; rental of vending machines.

Class 36: Loans [financing]; insurance brokerage; life insurance underwriting; agencies for non-life insurance; claim adjustment for non-life insurance; non-life insurance underwriting; insurance premium rate computing; providing insurance information; counselling services relating to non-life insurance; management of buildings; agency services for the leasing or rental of buildings; leasing or renting of buildings; purchase and sale of buildings; agency services for the purchase or sale of buildings; real estate appraisal; providing information on buildings or land [real estate affairs]; land management; agency services for the leasing or rental of land; leasing of land; purchase and sale of land; agency services for the purchase or sales of land; rental of paper money and coin counting or processing machines; rental of cash dispensers; rental of automated-teller machines.

Class 37: Construction; construction of power plants; installation of power plants; construction of wind power plants; installation of hydrogen-powered electricity generators; installation of photovoltaic power plants; machinery installation; office machines and equipment installation; maintenance and installation of security systems for building; installation, maintenance and repair of security and safety equipment; construction and repair of nuclear fuel reprocessing facilities; installation, maintenance and repair of computer hardware; installation of elevators [lifts], escalators, moving pavements [sidewalks], loading-unloading machines and apparatus; installation, construction, maintenance and repair of surveillance cameras; construction, installation and maintenance of broadcasting system, radio application system and communication system; construction, installation and maintenance of radar apparatus, air security and traffic control radio equipment and meteorological and disaster prevention machines and apparatus; installation, maintenance and repair of railway tracks; electrical installation services; telecommunication wiring; construction consultancy; advisory services relating to installation, maintenance and repair of elevators [lifts], escalators, moving pavements [sidewalks], loading-unloading machines and apparatus; operation and maintenance of building equipment; operation and maintenance of energy generating installations; monitoring the operation of elevators [lifts], escalators, moving pavements [sidewalks], loading-unloading machines and apparatus; repair or maintenance of bicycles; repair or maintenance of automobiles; recharging services for electric vehicles; repair or maintenance of railway rolling stocks; provision of information relating to repair or maintenance of railway rolling stock; repair or maintenance of two-wheeled motor vehicles; repair or maintenance of cinematographic machines and apparatus; repair or maintenance of optical machines and instruments; repair or maintenance of photographic machines and apparatus; repair or maintenance of loading-unloading machines and apparatus; repair or maintenance of elevators [lifts]; repair or maintenance of escalators; repair or maintenance of moving pavements [sidewalks]; repair or maintenance of fire alarms; repair or maintenance of office machines and equipment; repair or maintenance of air-conditioning apparatus; repair or maintenance of burners; repair or maintenance of boilers; repair or maintenance of pumps; repair or maintenance of non-electric prime movers; repair or maintenance of freezing machines and apparatus; repair or maintenance of refrigerators; repair or maintenance of turbines; repair or maintenance of electronic machines and apparatus; repair or maintenance of computers; repair or maintenance of electrostatic copying machines, printers and image scanners; repair or maintenance of digital signs; repair or maintenance of visual display units; repair or maintenance of electronic notice boards; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of telephone apparatus; repair or

maintenance of radio receivers; maintenance or repair of television receivers; repair or maintenance of facsimiles machines; repair of optical disc players; repair of optical disc recorders; repair of DVD players; repair of DVD recorders; repair of hard disk drive recorders; repair of loudspeakers; repair or maintenance of consumer electric appliances; repair or maintenance of electric washing machines; repair or maintenance of laundry dryers; repair or maintenance of waste compacting machines and apparatus; repair or maintenance of waste crushing machines and apparatus; repair or maintenance of electric lighting apparatus; repair or maintenance of power distribution or control machines and apparatus; repair or maintenance of power generators; repair or maintenance of electric motors; repair or maintenance of equipment for charge station in which it aims to charge two-wheeled motor vehicles using rechargeable battery, equipment for charge station in which it aims to charge automobiles using rechargeable battery and equipment for charge station in which it aims to charge bicycles using rechargeable battery; repair and maintenance of photovoltaic power plants; repair or maintenance of laboratory apparatus and instruments; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of medical apparatus and instruments; repair or maintenance of printing or bookbinding machines and apparatus; repair or maintenance of chemical processing machines and apparatus; repair or maintenance of metalworking machines and tools; repair or maintenance of industrial furnaces; repair or maintenance of nuclear reactors [atomic piles]; repair or maintenance of semiconductor manufacturing machines and systems; repair or maintenance of machines and apparatus for processing foods or beverages; repair or maintenance of agricultural machines and implements; repair or maintenance of plastic processing machines and apparatus; repair and maintenance of storage tanks; repair or maintenance of gasoline station equipment; repair or maintenance of mechanical parking systems; repair or maintenance of dishwashers; repair or maintenance of cooking equipment; repair or maintenance of vehicle washing installation; repair or maintenance of vending machines; repair or maintenance of machines and apparatus for use in beauty salons or barbers' shops; repair or maintenance of water pollution control equipment; repair and maintenance of water supply apparatus; repair and maintenance of electric water ionizers; repair or maintenance of water purifying apparatus; repair or maintenance of energy generating installations; repair or maintenance of power plants; repair and maintenance of hydrogen-powered electricity generators; dismantling of nuclear power plants; repair or maintenance of power transmission, transforming and distribution facility; repair or maintenance of 3D printers; repair and maintenance of apparatus for generating electrolytic hydrogen by water; repair or maintenance of gas water heaters; repair or maintenance of non-electric cooking heaters for household purposes; repair or maintenance of bath fittings; repair of toilet stool units with a washing water

squirts; repair of spectacles; cleaning of storage tanks; sterilization of medical apparatus and instruments; rental of electric washing machines; rental of laundry dryers.

Class 38: Broadcasting; providing information about television broadcasting and television programmes; news agency services; rental of telecommunication equipment including telephones and facsimile apparatus.

Class 39: Railway transport; transport and storage of waste; transportation information; transportation logistics; car transport; providing road and traffic information; marine transport; air transport; packaging of goods; freight brokerage; cargo unloading; removal services; warehousing services; energy distribution; distribution of hydrogen; distribution of hydrogen fuel; distribution of gas; electricity distribution; water supplying [distribution]; hot water supplying [distribution]; heat supplying [distribution]; rental of warehouse space; parking place rental; operating parking lots; rental of loading- unloading machines and apparatus; car rental; rental of refrigerators; rental of freezers; conducting of travel tours; escorting of travel tours; travel arrangement and reservation services, excluding those for lodging; rental of gasoline station equipment, not for repair and maintenance of automobiles; rental of hydrogen station equipment.

Class 40: Removal of radiation rays; decontamination of hazardous materials and nuclear waste; capturing and storing rare earth metal; bookbinding; water treating; recycling of waste; nuclear fuel reprocessing; providing information relating nuclear fuel reprocessing; treatment of waste; treating (recycling) radioactive waste; rental of metal treating machines and tools; rental of water purifying apparatus; rental of waste compacting machines and apparatus; rental of waste crushing machines and apparatus; rental of chemical processing machines and apparatus; rental of 3D printers; providing material treatment information; printing; collection, sorting and disposal of waste and trash; rental of air-conditioning apparatus; rental of humidifier; rental of air purifiers; rental of electricity generators; rental of printing machines and apparatus; air purification; electricity generation; generation of energy by converting hydrogen into electrical power; production of energy.

Class 41: Educational and instruction services relating to arts, crafts, sports or general knowledge; language instruction; education and training services in the field of medical care and health care educational services relating to beauty products and beauty therapy; education training services relating to computers, computer peripheral devices, semi-conductors, and computer software; educational and instruction services via e-mail and/or internet; distance learning services provided on-line; arranging, conducting and organization of seminars; arranging, conducting and organization of seminars and exhibitions for computers, computer peripheral devices,

semi-conductors, and computer software; providing electronic publications; reference libraries of literature and documentary records; book rental; publication of books; arranging and planning of movies, shows, plays or musical performances; movie theatre presentations or movie film production and distribution; providing audio and video material, images and motion pictures via on-line computer network, not downloadable; presentation of musical performances; production of radio or television programs; production of videotape film in the field of education, culture, entertainment or sports [not for movies or television programs and not for advertising or publicity]; organization, arranging and conducting of sports competitions; organization of entertainment events; providing amusement facilities; providing facilities for movies, shows, plays, music or educational training; booking of seats for shows; rental of cinematographic machines and apparatus; rental of television sets; rental of radio sets; interpretation and translation services; rental of cameras; rental of optical machines and apparatus.

Class 42: Providing meteorological information; architectural design; surveying; engineering; geological surveys

or research; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; design of power plants; design of hydrogen- powered electricity generators; design and maintenance of electronic circuits, semi-conductor elements, integrated circuits, large scale integrated circuits, printed circuit boards, field programmable gate array integrated circuits, semi-conductor memories and liquid crystal display (LCD) driving circuits; consultancy in the field of electronic circuits, semi-conductor elements, integrated circuits and large scale integrated circuits; design of elevators, escalators, and moving pavements [sidewalks]; consultancy and information services relating to information technology; designing; lighting design; consulting services relating design optimization; computer software design; computer programming; maintenance of computer software; computer software consultancy; configuration, installation, extension of function, change of function, addition of function, optimization of functions of computers; fault diagnosis and virus inspections of computer programs; remote monitoring of computer programs and computer systems and providing information thereof; duplication of computer programs; providing search engines for the internet; encryption of electronic data; providing user authentication services for computer network access; diagnosis and consultation of computer network security; consultation of information processing system; electronic data back-up services and provision of information and advice thereof; recovery of computer data; digitization of documents [scanning]; technical advice relating to operation of computers; design, programming, and,

maintaining of web sites; technological advice relating to computers, automobiles and industrial machines; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; genetic and DNA testing; research on building construction or city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; consultancy in the field of energy efficiency and energy management in the home; consultancy in the field of energy efficiency and energy management of building; inspection services with x-ray, ultrasonic, radiological or radar machines and apparatus; testing, inspection or research on agriculture, livestock breeding or fisheries; testing and research services relating to machines, apparatus and instruments; rental of measuring apparatus; rental of measuring or testing machines and instruments; rental of electric or magnetic meters and testers; rental of computers; providing computer programs on data networks; providing temporary use of on-line non-downloadable software; cloud computing; electronic data storage area; rental of computer servers; rental of web servers; software as a service [SaaS]; platform as a service [PaaS]; infrastructure as a service [IaaS]; providing temporary use of on-line applications and software tools; rental of laboratory apparatus and instruments; rental of technical drawing instruments; chemical research; chemistry services; conducting technical project studies; design and development of new technology for others; technical writing; research and development of new products for others.

Class 43: Rental of temporary accommodation; accommodation bureaux [brokering reservations for hotels, boarding houses or the like]; providing foods and beverages; preschooler and infant care at daycare centers; retirement home services; rental of conference rooms, rental of meeting rooms; rental of drinking water dispensers.

Class 44: Beauty salons; hairdressing salons; beauty consultancy; medical and health services relating to DNA, genetics and genetic testing; medical services; providing medical information; physical examination; dental clinic services; preparation and dispensing of medication; health counselling; dietary and nutritional guidance; nursing care; farming equipment rental; rental of medical apparatus and instruments; rental of apparatus and instruments for use in beauty salons or barbershops; landscape design.

Class 45: Information relating to fashion coordination services for individuals; legal services for procedures relating to industrial property rights; agencies for legal procedures relating to lawsuits or other legal issues; consultancy relating to industrial property; management of industrial property rights and copyright; licensing of

industrial property rights and copyright [legal services]; copyright management; security guarding for facilities; personal body guarding; caring for babies [excluding services provided at facilities]; rental of fire alarms; rental of surveillance cameras; rental of security surveillance equipment; leasing of internet domain names.

The Applicants claim that they have not used the said Trademark in respect of the said goods before the date of the said Application.

Any person may within three months from the date of the first appearance of this advertisement in the "*Antigua and Barbuda Official Gazette*" give notice in duplicate at the Trademarks Office, Antigua, of opposition to registration of the said Trademark.

Ms. Ricki Camacho,
Registrar Trademarks.

Richards & Company, Agent for:

Intel Corporation (whose legal address is 2200 Mission College Boulevard, Santa Clara, California 95052, U.S.A.), have applied for registration of one Trade Mark consisting of the following-

Intel Spark Logo

In classes 9, 42, that is to say:

Class 09: Computers; handheld computers; memory boards; computer hardware; integrated circuits; integrated circuit memories; integrated circuit chips; chip-sets; semiconductor processors; semiconductor processor chips; semiconductor chips; microprocessors; printed circuit boards; electronic circuit boards; computer motherboards; computer memories; computer operating systems; micro-controllers; data processors; central processing units; semiconductor memory devices; software programmable microprocessors; digital and optical microprocessors; digital and optical data and signal processors; video circuit boards; audio circuit boards; audio-video circuit boards; video graphic accelerators; multimedia accelerators; video processors; video processor circuit boards; processor die packaging and casings; cards, discs, tapes, wires, records, microchips and electronic circuits, all for the recordal and transmission of data; modems; apparatus and instruments, all for processing, storage, retrieval, transmission, display, input, output, compressing, decompressing, modifying, broadcasting and printout of data; computer input and output devices; work stations; data memories; storage devices; security systems for computer hardware and software; set electronic chips; components for computers and printed circuits; voice accelerators; voice, data, image and video accelerators; memory systems for computers; cables and adapters; computer terminals and printers for use therewith; video display units; telecommunications apparatus and instruments; cameras; computer hardware for computing; computer hardware for computing via a global and local network; computer hardware for cloud-computing; computer hardware for low-latency and high bandwidth computing; computer hardware for use in providing a secure computing environment; computer networking hardware; computer communication servers; computer hardware for use in providing a secure cloud computing network; computer software for computing; computer software for cloud computing; computer software for computing via a global and local network; computer software for low-latency and high bandwidth computing; computer memory hardware; computer software for providing a secure computing network; computer software for use in providing a secure cloud computing network; computer operating system software; computer system extensions, tools and utilities in the field of application software for connecting personal computers, networks, telecommunications apparatus and global computer network applications; computer hardware and software for enhancing and

providing real-time transfer, transmission, reception, processing and digitizing of data; computer network adapters; computer network controllers; computer network interface devices; computer network hubs, switches, and routers; microcontrollers for internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing mobile internet of things (IoT) enabled mobile devices; computer hardware and software for the development, maintenance, and use of local and wide area computer networks; computer hardware and software for the development, maintenance, and use of interactive audio-video computer conference systems; computer hardware and software for the receipt, display, and use of broadcast video, audio, and digital data signals; electronic control devices for the interface and control of computers and global computer and telecommunications networks with television and cable broadcasts and equipment; routers; hubs; servers; switches; apparatus for testing and programming integrated circuits; peripheral memory apparatus and devices; semiconductor devices; computer hardware and software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpn), wide area networks (wans) and global computer networks; router, switch, hub and server operating software; computer software tools for the facilitation of third party software applications; computer hardware and software for wireless network communications; downloadable electronic publications in the area of electronics, semiconductors and integrated electronic apparatus and devices, computers, telecommunications, entertainment, telephony, and wired and wireless telecommunications; computer hardware for use in machine vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms and data analysis; Computer software for machine learning, data query, and data analysis; computer software for cognitive computing, deep learning, artificial intelligence; computer software platform for cognitive computing; computer software for graphical representation of data; pattern recognition computer software; computer software for data mining; computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; computer software development kits; computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; downloadable and recorded vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; computer hardware and software for recording, processing, receiving, reproducing, transmitting,

modifying, compressing, decompressing, broadcasting, merging and enhancing sound, images, graphics, and data; algorithm software programs for the operation and control of computers; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and video graphics information; downloadable and recorded computer software for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data for use in fixed, mobile and handheld devices; electronic database featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information recorded on computer media; navigation software for calculating and displaying routes; public transit navigation system featuring interactive digital map displays, interactive instructions and user generated information; interactive social computer software for the retrieval and display of public transit, navigation, geographic, map and travel information; interactive social computer software to enable the transmission of public transit information, mapping, navigation, traffic, routes and point-of-interest information to telecommunication networks, cellular phones, navigation devices and other mobile and handheld devices; interactive social computer software that enables the exchange of information among users; computers and computer operated systems for autonomous driving, driver-assisted, connected vehicles, unmanned aerial devices, and drones; computer hardware and software platforms featuring interactive displays, control systems, and control devices, warning systems, connectivity, onboard computers, and GPS for vehicles, connected vehicles, autonomous, and driverless vehicles; multi camera systems for use in vehicles; GPS navigation and guidance, GPS location tracking, GPS map-displaying and route-calculating device, video-recording, and wireless communication network devices for data or image transmission for vehicles; computer software applications for digital virtual agents, predictive systems, machine learning, cognitive process automation, pattern recognition, character recognition, visual computing applications, knowledge virtualisation, robotics, drones, and unmanned vehicles; computer software and hardware applications for automatic vehicle driving control; computer software and hardware applications for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles; Vehicle tracking devices comprised of computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers, all for use in connection with vehicle tracking and vehicle monitoring.

Class 42: Providing temporary use of on-line non-downloadable software for machine learning, data mining,

data query, and data analysis; providing temporary use of on-line non-downloadable software for cognitive computing, deep learning, artificial intelligence; providing temporary use of non-downloadable software for data query and data analysis; providing temporary use of non-downloadable software for data mining; providing temporary use of non-downloadable software for cognitive computing, deep learning, artificial intelligence; searching and retrieving information on computer networks for others; computer services, namely, providing temporary use of online non-downloadable software, software application programming interface (API), and software widget for machine learning, data mining, data query, and data analysis; providing online non-downloadable computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; providing online non-downloadable computer software development kits; providing online non-downloadable computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; providing online non-downloadable vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; software as a service (SAAS) services featuring software for use in providing cloud-computing capabilities and information technology (IT) services, computing, and cloud computing; software as a service (SAAS) services featuring software for use in computing via a global and local network; software as a services (SAAS) services feature software development platform for use in connecting applications to enterprise systems and devices; software consulting and providing information on software as service; software as a service (SAAS) services featuring software for use in providing low-latency and high bandwidth computing; computer software services for providing computing capabilities for application developers and content providers; cloud computing featuring software for use in providing low-latency and high bandwidth computing, information technology (IT) services, and computing via a global and local network; computer software services for providing cloud computing capabilities for application developers and content providers; services for enabling applications to be deployed across an online network; services for providing analytics, caching, computation and traffic routing; services for providing a secure and trusted computing network; providing computer hardware and software consulting services in the field developing a cloud based environment with integration of applications across various platforms and connected devices; computer services, namely, creating computer network-based indexes of information, websites, and resources; providing temporary use of non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); providing online non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); software as a service (SAAS); consulting services in the field of computers and wireless computing; computer network management services, namely, monitoring of network

systems for technical purposes; hosting of digital content on the internet; computer network monitoring services, namely, providing information on the operation of computer networks; customization of web software, and computer user interface design for others; Development, design, and consulting services for computers; designing and developing standards for others in the design and implementation of computer software, computer hardware and telecommunications equipment; providing customers and technicians with information relating to computer project management; providing online software as a service for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data; providing online non-downloadable software featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information; providing online non-downloadable navigation software for calculating and displaying routes and sharing public transit navigation system, map and travel information; Providing online non-downloadable computer software to enable the sharing of public transit information, mapping, navigation, traffic, routes and point-of-interest information; interactive social computer software that enables the exchange of information among users; providing online software as a service for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles.
