**PUBLICATION WITHIN THE OFFICIAL GAZETTE**

The Official Gazette, the official newspaper of the Government of Antigua and Barbuda, is published every Thursday either online or in print form at the Government Printery.

**Notice Submissions and Style**

Notices for publication and related correspondence should be addressed to Mr. Ryan Johnson, Editor of the Official Gazette, at the following email addresses: **ryan.johnson@ab.gov.ag / antiguagazette@gmail.com**

That is the preferred method of communication for **all** correspondence (especially when sending Notices/information which must be sent in Microsoft Word format) to be published in the Gazette.

Letter headings should be addressed to:

Mr. Ryan Johnson  
Editor of the Official Gazette  
Ministry of Justice & Legal Affairs  
Parliament Drive  
Queen Elizabeth Highway  
P.O. Box 118  
Antigua

Microsoft Word is the preferred format for notice submissions. Please do not send notices only in PDF format as errors may occur when converting to Word. Image files should be sent in JPG or PNG format.

“Therefore, please send all notice submissions in the Microsoft Word format and a PDF version of such Notice only where there are signatures to be included in the notice submission (document).” This applies to all institutions including governmental, financial and other commercial institutions. Additionally, for the security purposes of any financial information being sent, the institution’s Information Technology (IT) personnel can lock the information as a JPEG in a Microsoft Word document and send the information to the Editor in that prescribed manner.

The Gazette Department reserves the right to apply its in-house style to all notices. Any corrections which are related to style will be made at the discretion of the Editor for reasons of consistency.

**Deadlines**

The deadline for submitting notices for publication in the principal edition is midday Monday on every week for all commercial and Government notices, in the week of publication.

\*Late notices may be accepted at the discretion of the Editor.

The deadline for cancelling notices in the principal edition is 12:00 midday Wednesday. Please call the Gazette Office immediately to cancel a notice, and confirm by email.

**Advertising Rates**

Publication Fee \$106.20 Eastern Caribbean Dollars.  
Annual Subscription Fee: \$215 Eastern Caribbean Dollars

\*Advertising rates are not negotiable.

Antigua and Barbuda Official Gazettes are published directly online at [www.gazette.gov.ag](http://www.gazette.gov.ag)

All editions are also available on subscription from the Antigua and Barbuda Government Printery, St. John’s, Antigua (telephone: (268) 562-5168/ (268) 462-0510).

**NOTICES***Royal Police Force of Antigua and Barbuda Notice***VEHICLE AUCTION SALE**

BY VERTUE OF THE POWERS VESTED IN ME UNDER SECTION 66 (1) SUBSECTION 4 OF THE VEHICLE AND ROAD TRAFFIC ACT, CHAPTER 460 AS AMENDED BY NO. 15 OF 1995. SECTION 10. SUBSECTION (4) The Traffic Commissioner may, three months after—

- (a) Impounding any vehicle under this Act; or
- (b) The final determination of any criminal matter in relation to any motor vehicle so impounded,

Dispose of the vehicle by public auction or in any other manner as the Traffic Commissioner Thinks fit if the vehicle is not removed by the owner from the custody of the Traffic Commissioner within the period prescribed in this subsection.

THE TRAFFIC COMMISSIONER WISHES TO INFORM THE GENERAL PUBLIC THAT A VEHICLE AUCTION SALE WILL TAKE PLACE AT THE MOTOR POOL AND POLICE HEADQUARTERS ON FRIDAY, 20<sup>th</sup> SEPTEMBER, 2024 AT 10:00 AM AND CONTINUING UNTIL ALL THE VEHICLES ARE SOLD.

MR. Atlee Rodney QPM, BSc

Traffic Commissioner.

Computer hardware; software for social networks and interaction with an online community; software development tools; application programming interface (API) software; application programming interfaces (API) intended for the creation of software applications; application programming interface (API) for software facilitating online services for social networking, and enabling the retrieval, downloading through server, downloading, access and management of data; software for creating, managing and interacting with online communities; software for organizing events, researching events, managing and scheduling events; software enabling creating, editing, downloading through server, downloading, accessing, viewing, publishing, displaying, tagging, blogging, streaming, linking, annotating, sharing views, commenting, integrating, transmitting and sharing or providing by other channels multimedia content or electronic information via a computer, the Internet and communication networks; software for modifying and enabling the transmission of images, content and audio, audiovisual and video data; software for modifying photographs, images, sound, videos and audiovisual content with photographic filters and augmented reality effects, namely, graphic illustrations, animations, texts, drawings, geotags, metadata tags, hyperlinks; Software for data and information collection, management, editing, organization, modification, transmission, sharing and storage; downloadable e-commerce software that enables users to conduct electronic business transactions via global computer and communication networks; software for sending and receiving messages, alerts, notifications and electronic reminders; search engine software; magnetic encoded gift cards; software for third-party advertisement creation, management, measuring and dissemination; ad server, namely a computer server for storing advertisements and supplying advertisements to websites; virtual-reality game software; augmented reality game software; mixed reality game software; computer hardware for virtual reality games; computer hardware for augmented reality games; computer hardware for mixed reality games; computer peripheral devices; virtual reality software enabling computers, video game consoles, portable video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality experiences; electronic game software for wireless devices; electronic game software for mobile electronic devices; electronic game software; portable computing peripherals, tablet computers, mobile devices and mobile phones; virtual reality software; augmented reality software; mixed reality software; software for video games; interactive multimedia computer game programs; downloadable electronic game programs; game software; headsets for computers; laser equipment for non-medical use; peripherals; software

for integrating electronic data into real-world environments for entertainment, education, games, communication and social networking purposes; software for accessing and displaying texts, images and electronic data concerning conferences in the field of software development; software enabling the development, evaluation, testing and maintenance of mobile software applications for mobile electronic communication devices, namely, mobile telephones, smart phones, laptops and tablet computers; software for the conversion of natural language into commands executable by a machine; software, namely interpretation interface for facilitating interaction between humans and machines; artificial intelligence software; personal assistance software; social assistance software; software development tools that enables mobile software applications to access back-end application services, including data storage media, advanced notifications, and user management; software for cartography services; software for planning activities with other users and making recommendations; software for social and location cartography; software for making reservations; software for ordering and/or buying products and services; geo-tracking software for researching, identifying and sharing locations; software for the wireless distribution of content, data and information; software that enables access, displaying, editing, connecting, sharing or provision of electronic media and information via the Internet and communication networks; software, namely an application providing social networking functions; software for creating, managing and accessing groups in virtual communities; research and alert software based on localization; research and identification software for job opportunities; software to identify and enable users to contact government representatives; software providing a virtual market; software providing meteorological information based on localization; software providing, connecting or streaming informations or news; parental control software; software to facilitate interaction and communication between humans and artificial intelligence platforms; software in the nature of a mobile application for use in creating, sharing, distribution and publication of advertisements; software for advertising and promoting products and services based on the geo-location; software application programming interface (API) that enables the retrieval, downloading, accessing and managing of data; software for viewing and interacting with a flow of images, audiovisual and video content, and associated text and data; downloadable computer software for finding content and content publishers and for subscribing to content; software for organizing images, video and audiovisual content via metadata tags; software for creating and managing social media profiles and user accounts; software for uploading, downloading, streaming, archiving, transmission and sharing of images and video, audiovisual and text content and related

information; photo and video equipment, namely, interactive kiosks for capturing, uploading, editing, printing and sharing of digital images and video; software enabling individuals, groups, companies and brands to create and maintain an online presence for marketing purposes; software for advertisers for the purposes of communicating and interacting with an online community; software for streaming multimedia entertainment content; application programming interface (API) for use in the development of artificial intelligence platforms, namely, robots, virtual agents and virtual assistants; software for the organization of events; computer software, downloadable computer software and mobile application software for taking photographs and photo editing and recording and editing videos; virtual-reality computer hardware; computer hardware for virtual reality games; virtual reality software enabling computers, video game consoles, portable video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality experiences; game software for home video game consoles; mobile devices, tablets, mobile devices and mobile phones, namely, configurable head mounted displays; headsets for video game consoles; computer software; augmented reality computer hardware; virtual reality headsets; augmented reality headsets; virtual reality glasses; augmented reality glasses; virtual reality software for navigating in a virtual reality environment; augmented reality software for navigating in an augmented reality environment; augmented reality software intended to allow computers, video game consoles, portable video game consoles, electronic tablets, mobile devices, and mobile phones to provide augmented reality experiences; headsets for virtual reality games; headsets for augmented reality games; mobile virtual reality controllers; mobile augmented reality controllers; computer and video game programs; interactive entertainment software; gesture recognition software; motion tracking sensors for virtual reality technology; motion tracking sensors for augmented reality technology; computer software for controlling the operation of audio and video apparatus; devices for streaming of digital media; earphones; audio headphones; video display software; video display equipment, namely, video drivers for video glasses; software for navigating in a virtual reality environment; software intended to allow computers, video game consoles, portable video game consoles, electronic tablets, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; virtual reality software for tracking objects, motion control and display of content; augmented reality software for tracking objects, motion control and display of content; virtual reality software that enables users to experiment with virtual reality viewing, handling and immersion; augmented reality software that enables users to experiment with augmented reality viewing, handling and immersion; virtual reality software for the operation of virtual

reality headsets; augmented reality software for the operation of augmented reality headsets; virtual reality software for interactive entertainment; augmented reality software for interactive entertainment; headsets; software for recording, storing, transmission, receiving, displaying and analyzing data from portable computer equipment; portable computer devices mainly consisting of software and display screens for connection to computers, tablets, mobile phones and mobile devices to enable virtual reality experiences and augmented reality; glasses to allow experiences in the world of virtual reality and augmented reality; software for the creation and design of virtual reality and augmented reality software; application programming interface (API) for computer software for the development of virtual reality experiences and augmented reality; software and firmware for operating system programs; computer operating systems; software for motion tracking, displaying, viewing, handling and displaying augmented and virtual reality experiences; software, firmware and hardware for visual tracking and recognition, voice, audio, motion, eyepieces and gestures; computer hardware and software for operating detection devices; electronic sensor devices, cameras, projectors, and microphones for the detection, capture and recognition of facial and voice gestures; computer hardware and software for detecting objects, user gestures and commands; software and firmware for control, management and configuration of controllers; firmware and software that enables electronic devices to share data and communicate with each other; computer operating system software; software driver programs for electronic devices that enables computer hardware and electronic devices to communicate with each other; cameras; batteries; battery chargers; battery cases; battery packs; charging devices and power management for mobile electronic devices; charging stands; charging stations for mobile electronic apparatus; base chargers for mobile electronic apparatus; power banks; external chargers; cases for wireless chargers; rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; external rechargeable batteries for use with mobile electronic apparatus; battery chargers; power adapters; electrical adapters; electric and electronic connectors; power adapters; bags and cases specially adapted for mobile electronic apparatus; briefcases, backpacks and carrying cases for mobile electronic apparatus; cases for mobile electronic apparatus; protection plates; protective covers and cases for mobile electronic apparatus; protective sleeves for mobile electronic apparatus; supports, armbands, pliers and carrying cases specially adapted for mobile electronic devices; wall supports for mounting electronic mobile devices; holders for mobile electronic apparatus; holders for mobile electronic apparatus; remote controls for mobile electronic apparatus; audio and speaker cables and

electrical connectors; audio speakers; docking stations for mobile electronic apparatus; loudspeakers; parts and fittings for electronic cables; electric cables; connection cables; cables for optical signal transmission; power cables and cable connectors; microphones; audio receivers; audio transmitters; wireless computer peripherals; head-mounted video displays; electronic signal receivers; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; software for sending and receiving electronic messages, graphics, images, audio and audiovisual content via the Internet and communication networks; software in the form of a mobile application; SIM cards; software for processing images, graphics, sound, video and text; software, namely, instant messaging software, file sharing software, communication software for electronic data exchange, audio, video images and graphics via computer networks, mobile, wireless and communication; software for personal information management, and software for the synchronization of data; content management software for social networks, interacting with a virtual community and transmitting images, audio, audiovisual and video content, photographs, videos, data, text, messages, comments, advertisements, communications and information from advertising media; software for displaying and sharing a user's location and finding, locating, and interacting with other users and places; customer relationship management (CRM) software; software for provision of information to consumers; messaging software; software for facilitating and organizing the financing and distribution of collections and donations; software for online charity fundraising services and financial donations services; software to facilitate calls using voice over IP (Voip) protocol, phone calls, video calls, text messages, instant messages and online social networking services; telecommunications equipment for the provision of access to third parties and that enables transmission of videos, data and voices through global communication networks, namely, mobile telephones and access to computers and mobile telephones terminals, basic two-way radio stations and their wireless radio parts, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud (mobile cloud) clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and central mobile networks including data transmitters, wireless networks and gateways for data collection, transmission and management, voice and video; communications software and communication hardware for provision of access to the Internet.

**35**

Advertising, marketing and promotional services; provision of study and market information services; promotion of the goods and services of others via computer and communication networks; business and advertising services, namely media plan establishment services and media space purchase on behalf of third parties; business and advertising services, namely advertising services for monitoring the advertisement performance, for managing, distributing and disseminating advertisements, for analyzing advertisement data, for reporting advertisement data and optimizing advertisement performances; support services in the fields of advertising and marketing; services facilitating the sale and exchange of products and services of third parties via computer and communication networks; online retail sale store services offering a wide variety of third party consumer goods, gift cards and delivery of digital media, virtual reality headsets and virtual reality content and data; operating online marketplaces for the sale of products and/or services; provision of sales areas online for sellers and buyers of goods and services; company networking services; personnel placement and recruitment services; classified advertising services, namely provision of classified advertising space via the global computer network; services to heighten public awareness about charity, philanthropic, volunteer, public and community and humanitarian activities services; organization of exhibitions in the field of development of computer software and hardware for commercial or advertising purposes; services of an association intended for promoting the interests of professionals and businesses in the field of mobile software application development; on-line advertising and promotion of goods and services of third parties on the Internet; consulting services in the field of marketing and advertising; market research services; advertising, marketing and promoting the goods and services of others by provision of photo and video equipment for special events; broadcasting services for streamed live advertising material, namely, promotional event videos; organizing and conducting special events for commercial, promotional or advertising purposes; advertising via electronic media; organizing, promoting and conducting exhibitions, trade fairs and events for commercial purposes; organizing and conducting events and exhibitions for commercial purposes in the field of interactive entertainment, virtual reality, general electronics and video games; on-line retail sale store services featuring virtual reality and augmented reality headsets, games, content and digital media; provision of telephone directory information via global communication networks; electronic catalog services; customer relations management; consulting and commercial assistance

services; advertising services; distribution of advertising for third parties via a global computer network; advertising services, namely, management of advertising campaigns, targeting, and process optimization; marketing research, particularly, research and analysis of advertising campaigns and consumer preferences; promoting the goods and services of third parties by distributing advertising videos on the Internet; advertising services, namely, planning, monitoring and production of advertising reports for third parties; arranging and implementation of blueprints and media and advertising concepts; distribution of advertisements, particularly, placement of advertisements on websites for third parties; advertising services, namely targeting and optimizing online advertising; business information management, particularly, production of business information reports and business analysis in the fields of advertising and marketing; commercial business management; commercial administration; office functions; business consultancy relating to marketing; media planning and media buying services; consulting services in the field of brands; design of advertising materials for third parties; provision of business directory information via the Internet on restaurants, bars, cinemas, dance clubs, museums, art galleries and other social and cultural spaces; promotion of public interest and awareness of internet access problems for the world's population; business consultancy in the field of telecommunications; business management consultant services to enable business entities, non-governmental and non-profit organizations to develop, organize and administer programs to provide better access to global communication networks; promotion of events for video game players and computer game players; promotion of exhibitions, trade fairs and events for commercial purposes; organization, promotion and conducting of exhibitions, trade shows and events for commercial purposes; promotion of events for video game players and computer game players.

**36**

Financial transaction processing services, particularly, provision of electronic transactions and secure payment options; electronic processing and transmission of bill payment data for Internet and communication networks users; electronic transfer of funds; financial transaction processing services in the nature of credit cards, debit cards and processing of transactions services by gift cards; processing of payment transactions services for merchants; provision of mobile electronic payment services for third parties; financial services; payment processing services; financial transaction services; organizing financing and financial redistribution of collections and donations; online charity fundraising services and

financial donations services; issuance of prepaid gift cards, in the nature of certificates, redeemable against products or services; financial sponsorship of competition programs and incentive award programs for software developers.

**38**

Sharing services for photographs and videos, namely electronic transmission of digital photo files, videos and audio-visual content between Internet users; telecommunications; provision of access to electronic, computer and online databases; telecommunication services, namely electronic transmission of media, data, messages, graphics, images, audio content, video content and electronic information; provision of online communication forums on topics of general interest; Provision of on-line communication links which transfer the website user to other local and global web pages; provision of access to websites or other electronic third-party content via a universal identifier; provision of online discussion forums, instant messaging services and electronic display boards; audio, text and video content broadcasting services, video and text via the Internet or other communications networks; voice services via the voice over Internet Protocol (VoIP); telephone communication services; provision of access to computer databases in the fields of social networking, dating and social meetings; sharing services for photographs and peer-to-peer data, namely electronic transmission of digital photograph files, graphics and audiovisual content between Internet users; electronic transmission of images, audiovisual and video content, photographs, videos, data, texts, messages, advertisements, communications and advertising information via peer-to-peer networks; provision of discussion forums for social networking; streaming and live streaming of video, audiovisual and interactive audiovisual content via the Internet; telecommunication services, namely, electronic transmission of virtual reality content and data; provision of electronic bulletin boards for transmission of messages among users in the field of general interest; videoconferencing services; provision of technical support relating to the use of communications equipment; provision of facilities and equipment for video conferencing; teleconferencing; provision of an online community forum that enables users to share and stream information, sound, video, news in real time, entertainment content or information to form virtual communities and participate in social networks; telecommunication services, namely transmitting and receiving data services via telecommunication networks; communication by mobile telephone; web messaging; video teleconferencing; instant messaging services; electronic exchange of voice, data, audio, video, text

and graphics accessible via computer and telecommunication networks; encrypted electronic transmission and delivery of recovered data; provision of access to telecommunication networks and the Internet; provision of access to the Internet; information on telecommunication; consulting in the field of telecommunications, particularly, transmission of voice, data, and documents via telecommunications networks; provision of access to online computer databases and online searchable databases in the field of classified advertising; provision of access to online electronic and interactive databases for user-defined content, third-party content, photographs, video, audio, visual and audiovisual material in the field of general interest; transmission of photographs and videos via the Internet [sharing services]; provision of access to online websites that enables users to download, modify and share content, information, experiences and virtual reality data; provision of access to online websites that enables users to download, modify and share content, information, experiences and augmented reality data; provision of access to online websites that enables users to download, modify and share content, information, experiences and mixed reality data; provision of access to online computer databases and online searchable databases in the field of social networking, social gatherings and meetings; provision of access to online content from directories and searchable information databases, including texts, electronic documents, databases, graphics, electronic media, images and audiovisual content, via the Internet and communication networks; provision of online networks that enables users to participate in social networking and social networking management of their content; provision of online networks featuring temporary use of non-downloadable software for sending and receiving electronic messages, instant messages, email alerts and reminders, photographs, images, graphics, data, audio, video and audiovisual content via the Internet and communication networks; provision of online networks that enables users to download, modify and share audio content, video content, photographic images, texts, graphic illustrations and data.

**41**

Entertainment services; electronic publishing services for others; entertainment services, particularly, provision of services to interactive games for one or several players for games over the Internet or communication networks; provision of information on computer games and video games online via computer or communication networks; organization and conducting competitions for video and computer game players; providing online education and training for software developers; organization of competitions and

incentive awards to recognize, reward and encourage individuals and groups who are dedicated to personal development, personal achievement, charitable, philanthropic, volunteer, public and community service and humanitarian activities and the sharing of creative work products; organization of competition programs and incentive awards for software developers; publication of teaching material, in particular, publication of books, magazines, flyers and electronic publications; educational services, in particular, organizing and conducting online conferences, courses, seminars and training in the fields of advertising, marketing, social networking, the Internet and social media, and distribution of course materials relating to the aforementioned services; online magazines, in particular, blogs featuring user-defined content; entertainment services, particularly, provision of virtual reality games, interactive entertainment services and virtual reality content; entertainment services, namely, provision of augmented reality games, interactive entertainment services and augmented reality content; entertainment services, namely, provision of mixed reality games, interactive entertainment services and mixed reality content; provision of a network-wide usable computer game by network users; provision of online virtual reality games; provision of online augmented reality games; provision of online mixed reality games; entertainment services, namely, provision of online video games; organization of exhibitions in the field of interactive entertainment industries, virtual reality, consumer electronic products and entertainment video game for cultural or educational purposes; organization and conducting of educational conferences; organization of exhibitions and events in the field of development of software for educational purposes; education services, namely, organization and conducting of conferences and seminars in the fields of artificial intelligence and the Internet of things; training in the field of design, advertising and communication technologies; training in the field of media strategic planning with respect to advertising, marketing and business; on-line journals, namely, blogs in the field of advertising, marketing and business; provision of entertainment via computer, electronic and online databases; publishing services, namely publication of electronic publications for third parties; rental of stands for photo and/or video capture, uploading, editing, and sharing of photos and videos; entertainment services, namely, provision of online facilities for streaming entertainment content and live streaming of video on entertainment events; organization of exhibitions and conferences live in the fields of culture, entertainment and social networks for non-professional and non-commercial purposes; provision of on-line games; entertainment services, namely, provision of virtual reality games, interactive

entertainment and content and virtual reality experiences; entertainment services, namely, provision of augmented reality games, interactive entertainment and content and augmented reality experiences; entertainment services, namely, provision of mixed reality games, interactive entertainment and content and mixed reality experiences; entertainment services, namely, organization and conducting of competitions for promoting the development of use and interactive entertainment, virtual reality, augmented reality, consumer electronics products and software and hardware for video game entertainment; organization of exhibitions and events for cultural, educational or entertainment purposes; production of video and computer game software; virtual reality arcade services; augmented reality arcade services; virtual reality game services provided online from a computer network; augmented reality game services provided online from a computer network; provision of interactive computer games and online games; augmented reality video production; virtual reality video production; production of video and computer game software; game services provided on-line from a computer network; entertainment services, namely, provision of interactive games; production of multimedia entertainment software; media production services; entertainment in the form of development, creation, production and post-production of multimedia entertainment content; entertainment services, namely, provision of augmented reality games and interactive entertainment content; entertainment services, namely, provision of online virtual reality environments; entertainment services, namely, provision of online augmented reality environments; provision of entertainment information from directories and searchable databases, including texts, electronic documents, databases, graphic illustrations, photographic images and audiovisual information, on the Internet and communication networks; provision of information on computer games and online video games via computer or communication networks; organization and conducting of competitions for video game players and computer game players; organization of exhibitions in the field of interactive entertainment, virtual reality, consumer electronic products and video game industries entertainment for cultural or educational purposes; organization and conducting of educational conferences; organization of exhibitions in the field of development of educational software; provision of electronic publications, not downloadable, on the Internet on virtual reality technology; provision of electronic publications, not downloadable, on the Internet on augmented reality technology; education; training; sporting and cultural activities; entertainment and educational services,

namely, provision of films, television programs, web-programs, audiovisual and multimedia works not downloadable on the Internet, as well as information, reviews and recommendations on films, TV shows, web shows, audiovisual works and multimedia works; provision of information in the field of entertainment and in the areas of interest groups for secondary education, college life, social life and community life through computer databases, electronic and online for educational, recreational and entertainment purposes; organization of competitions and incentive programs for educational purposes aimed at recognizing, rewarding and encouraging individuals and groups who are dedicated to personal progress, personal achievement, charitable, philanthropic, volunteer, public and community service and humanitarian activities and the sharing of creative work products; organizing and conducting of business conferences in the field of the interactive entertainment, virtual reality, general electronics and video games; educational services, namely, organization and conducting of seminars and conferences in the fields of artificial intelligence and the Internet of Things.

**42**

Design and development of computers and software; computer services, namely virtual communities software design enabling registered users to organize groups, meetings and events, participate in discussions, and participate in social, professional and community networking; computer services, in particular, hosting electronic infrastructures on behalf of third parties for organizing and conducting meetings, events and interactive discussions via the Internet and communication networks; computer services, namely programming of customized web pages featuring information defined or specified by users, personal information and profiles including audio, video, photo or text content and data; computer services, namely, provision of search engines enabling data to be obtained via the Internet and communication networks; provision of an online network featuring technology that enables online users to create personal profiles featuring information on social and commercial networking and to transfer and share this information on multiple online infrastructures to participate in social networking and manage their social networking accounts; provision of online non-downloadable software for social networking, creating a virtual community and transmitting audio, video, photo or text content and data; application service provider (ASP) services, namely hosting third-party software applications; application service provider (ASP) services featuring software for enabling or helping creating, editing, uploading, downloading, accessing, viewing, publishing, displaying, tagging, blogging, streaming, linking, annotate, sharing views

concerning, commenting, integrating, transmitting and sharing or providing via other channels multimedia content or electronic information via the Internet or communications networks; provision of an online network service that enables users to transfer personal identity data and share personal identity data with and between multiple online infrastructures; provision of online non-downloadable software for e-commerce that enables users to perform electronic business transactions via the Internet and communication networks; information technology services, particularly, services of an application service provider (ASP) featuring software application programming interface (API) that enables users to perform electronic business transactions via a global computer network; software as a service (SaaS) featuring software for sending and receiving of electronic messages, notifications and reminders and for facilitating electronic commercial transactions via the Internet and communication networks; provision of non-downloadable online software for designing, managing, measuring, analyzing, distribution and supply of third-party advertisements; provision of an application service featuring software for application programming interface (API) for the management, monitoring, measuring of - and the development of reports on - media planning, media buying and advertising of third parties; provision of non-downloadable software programs that enables buyers and sellers of online advertising to purchase and sell advertising inventory; platform as a service (PaaS) proposing software platforms for the purchase and the dissemination of advertisements; application service provider (ASP) software featuring software intended for the purchase, sale, design, management, tracking, evaluation, optimization, targeting, analysis, provision, and preparation of reports on online marketing and advertising; services of an application service provider (ASP) featuring software intended for the design and management of online marketing and advertising campaigns; design and development of game software and video game software intended for use with computers, video game program systems and computer networks; development of computer hardware for electronic multimedia and interactive games; development services for electronic multimedia and interactive games; design, engineering, research, development and testing in the field of mobile applications development of computer software for use in connection with the functionality and hypertext links; technical assistance in the field of mobile application software development related to the use and functionality of hypertext links; provision of non-downloadable online software that enables the development, evaluation, testing and maintenance of mobile applications software for portable computer devices; provision of user authentication services by

means of the unique signature and software technology for e-commerce transactions; provision of user authentication services for electronic funds transfer, credit and debit cards and electronic check transactions by means of unique signature technology and software technology; provision of an application programming interface (api) to allow users to perform electronic business transactions via the Internet; provision of non-downloadable online software for processing electronic payments; platform as a service (PaaS) services featuring software enabling users to perform business and e-commerce transactions; provision of online non-downloadable software application programming interface (api) intended for use in electronic mail and transmission of content and audio, video, photo, and text data; platform as a service (PaaS) including computer software platforms for electronic mail and transmission of audio, video, photographic images, text, graphics and data; provision of non-downloadable online software for electronic messaging; cartography services; provision of non-downloadable online software for cartography services; application service provider (ASP) services featuring software for cartography services; provision of non-downloadable online software for sharing and displaying a user's location, plan activities with other users and give recommendations; application service provider (ASP) services featuring software to enable or facilitate sharing and displaying of a user's location, planning of activities with other users and giving recommendations; provision of non-downloadable online software for social and location mapping; application service provider (ASP) services featuring software to enable or facilitate social and location mapping; provision of non-downloadable online software for making reservations; application service provider (ASP) services comprising software to enable or facilitate reservations; provision of non-downloadable online software for the order and/or purchase of goods and services; application service provider (ASP) services featuring software to enable or facilitate the order and/or purchase goods and services; provision of non-downloadable online software capable of tracking for researching, determining and sharing the location of goods, services and events of interest; application service provider (ASP) services featuring software capable of tracking for researching, determining and sharing the location of goods, services and events of interest; provision of non-downloadable online software for the creation, management of - and access to - private groups created and managed by users within virtual communities; provision of non-downloadable online software for research and identification of local and location-based points of interest, events, points of reference, employment opportunities, entertainment, cultural events, shops and offers; provision of non-

downloadable online software for searching and identifying employment opportunities; provision of software to identify and enable users to contact government representatives; provision of non-downloadable online software for providing a virtual marketplace; provision of non-downloadable online software for providing localized meteorological information; provision of non-downloadable online software for providing, connecting, or streaming news information or information on current events; provision of non-downloadable online software to facilitate interaction and communication between humans and artificial intelligence platforms; application service provider (ASP) services featuring software to enable or facilitate interaction and communication between humans and artificial intelligence platforms; augmented reality and virtual reality effects design for modifying photographs, images, videos and audiovisual content; hosting sites that enables users to download, modify and share virtual reality content and data; hosting sites that enables users to download, modify and share augmented reality content and data; hosting sites that enables users to upload, modify and share mixed reality content and data; provision of non-downloadable software programs that enables buyers and sellers of online video advertisements to buy and sell advertising inventories; platform as a service (PaaS) proposing software platforms for the purchase and the dissemination of advertisements; services of an application service provider (ASP) featuring software intended for the purchase, sale, tracking, evaluation, optimization, targeting, analysis, provision, and preparation of reports on on-line marketing and advertising; services for an application service provider (ASP) featuring software intended for the design and management of advertising campaign videos and on-line marketing; provision of non-downloadable online software for the creation and management of social media profiles and user accounts; provision of non-downloadable online software for modifying photographs, images and audio, video and audio-video with photographic filters and augmented reality effects, particularly graphics, animations, texts, designs, geotags, metadata tags, hyperlinks; providing non-downloadable online software for viewing and interacting with an electronic multimedia stream, namely images, video and audiovisual content, live streaming of videos, comments, advertising, news, and Internet links; providing non-downloadable online software for finding content and editors of content and for subscribing to content; providing non-downloadable online software for organizing images, video and audiovisual content by means of metadata tags; IT services, namely, hosting a virtual community that enables registered users to share, view, subscribe to-

and interact with- images, audiovisual and video content and related data and information; application service provider (ASP) services featuring software for social networking, social networking content management, virtual community creation and transmission of images, audiovisual and video content, photographs, videos, data, texts, messages, advertisements, media advertising communications and information; application service provider (ASP) services featuring application programming interface (API) software which facilitates online services for social networking, software applications development; platform as a service (PaaS) featuring software platforms for social networking, social networking content management, virtual community creation and transmission of images, audiovisual and video content, photographs, videos, data, texts, messages, advertisements, media advertising communications and information; rental of software enabling users to download, modify and share images, videos and audiovisual content; computer services, namely hosting online content and advertising defined by the user and creating a social media feed; providing non-downloadable online software for taking photographs and recording audio, video and audiovisual content; providing non-downloadable online software for uploading, downloading, archiving, enabling the transmission and sharing of images, video and audiovisual content and related text and data; providing non-downloadable online software for streaming of multimedia entertainment content; providing non-downloadable online software for creating and maintaining an online presence for individuals, groups, businesses and brands; providing non-downloadable online software enabling advertisers to communicate and interact with online communities; personal assistant software design; social assistance software design; provision of non-downloadable online e-commerce software to enable users to conduct electronic business transactions over the internet; provision of temporary use of non-downloadable software to access, collect, display, edit, link, modify, organize, label, stream, share, store, transmit and otherwise provide electronic media, photographs, images, graphics, audio, video and audiovisual content, data and information through the Internet and communication networks; provision of temporary use of software non-downloadable to facilitate voice over Internet Protocol (Voip) calls, telephone calls, video calls, text messages, electronic messages, instant messaging and online social networking services; application service provider (ASP) services featuring software to enable or facilitate voice over Internet protocol calls (VoIP), telephone calls, video calls, text messages, electronic messages, instant messages and online social networking services; IT services, namely, the

provision of information in the fields of technology and software development through the Internet and communication networks; providing non-downloadable online software enabling photographs to be taken and edited and videos to be recorded and edited; application service provider (ASP) services featuring software to enable or facilitate the taking and editing of photographs and recording and editing of videos; design and development of computer game hardware and software; design and development of virtual reality hardware and software; design and development of mixed reality computer hardware and software; design and development of video game hardware and software; provision of temporary use of non-downloadable software applications for social networking, virtual community creation and the transmission of virtual reality content and data; IT services, namely, programming of custom web pages containing user-defined or specified information, personal profiles and virtual reality and augmented reality content and data; computer programming services for the creation of videos and virtual reality games; design and development of augmented reality hardware and software; software development; development of interactive multimedia software; maintenance and repair of computer software; provision of temporary use of non-downloadable software to transmit, share, receive, download, display, interact with and transfer content, texts, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; IT services, namely, the provision of information in the fields of technology and software development through a global IT network; technical support services, namely, troubleshooting in the form of hardware and computer software troubleshooting; IT services, namely, cloud hosting provider services; provision of temporary use of non-downloadable cloud-based online software for electronic data storage; provision of temporary use of non-downloadable cloud-based online software for virtual and augmented reality applications and environments; hosting of online interfaces (software) for third parties featuring a technology that enables users to upload upstream and download downstream electronic files; computer services, namely, hosting electronic facilities for third parties for interactive discussions via communication networks; provision of an online non-downloadable software; services for an application service provider, namely, provision, hosting, management, development and maintenance of applications, software, websites and databases in the field of wireless communication, access to mobile information and remote data management for wireless provision of content on handheld computers, laptops and mobile electronic devices; application service provider (ASP) services; provision of temporary use

of computer software and non-downloadable online applications for instant messaging, voice over Internet protocol (VoIP), audio conferencing and video conferencing; computer services, namely, hosting an online community that enables registered users to participate in social networking; data encryption services; data encryption services; provision of online non-downloadable software and applications for customer relations management (CRM); application service provider (ASP) services featuring software for customer relations management (CRM); provision of online software platform services that enables users to display notes, notices, references and recommendations concerning companies, restaurants, service providers, events, public services and government agencies; computer services, in particular, application service provider services featuring application programming interface (API) software for customer relations management (CRM); hosting of digital content [virtual reality and augmented reality] on the Internet; scientific and technological services as well as research and design services relating thereto; industrial analysis and research services; computer services, namely, provision of remote management devices via computer networks, wireless networks or the Internet; providing non-downloadable online software for facilitating and organizing the financing and financial distribution of collections and donations; providing non-downloadable online software for online charity fundraising and monetary donations services; providing of temporary use of online non-downloadable software for access and use of an online network of third parties featuring user comments concerning business organizations, service providers and other resources.
